

My Place is the newest in town with the Fairfield and then Hampton following close behind. The Gladstone is historic and located downtown and across the parking lot from the civic center if you're looking for quick convenience. Jamestown isn't terribly large, so these are pretty much all a 5-10 minute drive based on traffic. **The Baymont and Gladstone are the only hotels that have bar & restaurant on site.** The Fairfield does offer some snacks and amenities on site; and both the Fairfield, and Hampton are across the parking lot from Walmart and a small mall.
